## From the Editors Desk

Hi All,

This year is pretty much done already. Be sure you all get to the Christmas Party at Burleigh Town Tavern on the 7<sup>th</sup> December. It doesn't look like Carol and myself will be there as I am going to be at work that day, so enjoy.

It's great to see more items being available for our cars. Boot mats and carpets are only a small thing but can make such a difference to the overall look of car. This trip to Tubeworks, next year, to see a car get scanned, looks interesting. I want to be there for that.

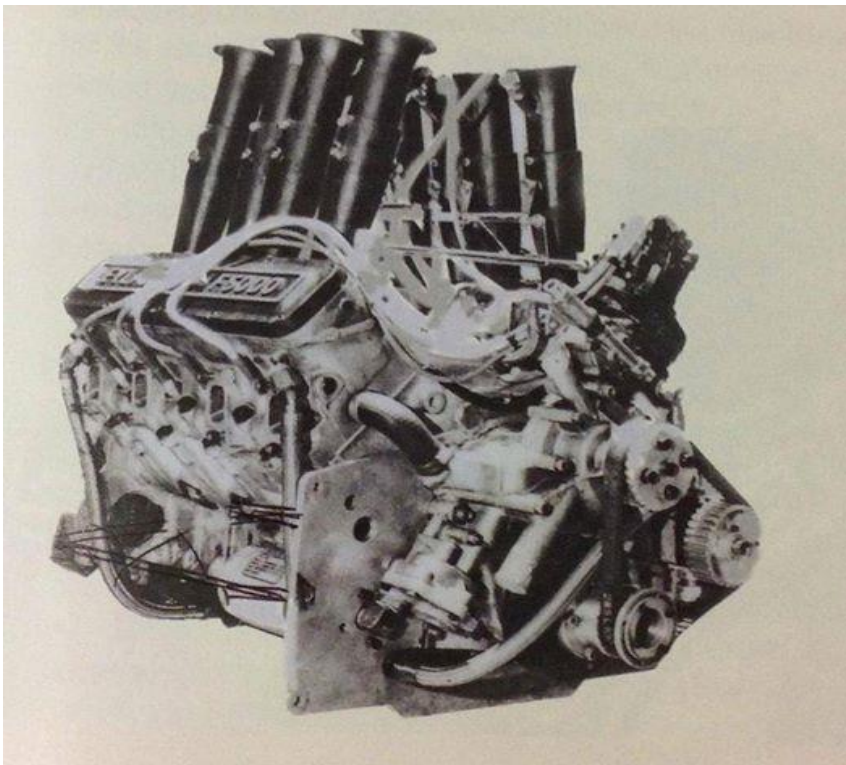

For next year I would like to be able put the whole years' worth of outings in the newsletter. We obviously have some already with the All British Day in September and the Nationals in Adelaide in April. We need to put the thinking caps on and complete the itinerary. Other car clubs can do it, so no reason we can't.

Also, I need people to send me articles on where they have been in their P's and pictures, so I can include them in the Newsletter. If you have something relevant to sell, send it to me and I will put it in. If you have any relevant technical info for P76's I will be happy to include.

That's all for now, see you soon,

Graham and Carol.

PS, I have included a picture of the new engine for my Corinthian Super. (I wish)

# President's Report

Hi All,

This month has gone very quickly, with a number of events having been attended by our members. Good news is that David from the Sunshine Coast picked up a trophy at the Redcliffe for best original car with the "Am I Blue". Graham from Yatala won best car at the drive in but in a PT Cruiser. Nice to see we had 2 cars there too, Richard and myself. Rickie from Yatala also turned up in the Ural side car, named "Gorky Park".

Been some interesting happenings on Facebook, whether for the better or worse I am not sure. Good news is that we now have access to boot carpet mats for the executives and rubber boot mats too. Well done to those people to get them made.

We are looking into the scanning of parts of P76 and Marinas so as to help those restoring their cars. Chris Brown is chasing vents for the Marina 4 door. I have also got new brake hoses for my cars. The company Tubeworx at Clontarf, has the means to make both metal and rubber hose. They are scanning the rear pipe on the diff for us now.

A new idea that is becoming a buzz in the world of reproduction is this scanning service with 3 D printing. Tubeworx scan the pipes and have a machine to make them for you. We are arranging a visit to their factory to check this out in Feb 2015.

We are in negotiations with our club members at Yatala to install another container. The containers will hold mostly large and second hand parts while Rogo will look after the new ones.

A couple of weekends back, I assisted Russell from Ferny Hills with the removal of a car from the back of his father's property. A project car that Russell started but fell by the way. Check it out at Yatala. As we dragged the car out, I looked like the captain of the P wreck as I steered around the yard. Also Graham from Yatala and I assisted with the removal of a falcon from club member Graham and Annette at Meadowbrook. Graham is also selling his Targa. Detail are available from the web site or emailing. If not sold soon privately will be on EBay.

We have decided to have a meeting prior to the club Xmas party so that you get a chance to be welcomed and also express your thoughts.

See you at the Party on the 7<sup>th</sup> Dec, 2014

Also, Steve Trost of Toowoomba has got back into Upholstery and can do cars if needed. Contact him on 0407645225.

Cheers,

Adrian

## More adventures of Yowee

Yesterday, I assisted Russell a member from west Brisbane move his discarded project car from the family home to a remote location south of Brisbane. I am hoping to have drawings and ideas posted on the web site in the future. As you can see the car has a shortened rear and was going to be a convertible. Russell was interested in Chargers.
