Other "P76 Owners" clubs are welcome to reproduce any original material in this newsletter providing a mention of "Leyland P76 Owners Club Incorporated Queensland" and the "Author" of that material as the original source is made.

From the Editors Desk

Hello Again,

Not long since I wrote the last one of these. At our last meeting we briefly discussed the rising costs of printing and posting this newsletter. The postage is going up from 70 cents to \$1 each and the printer cartridges were going up as well. Even they are about \$90 each for non-original type. Over \$200 each if I were to use the Konica ones. So more discussions at next meeting. Also, Adrian spoke of finding a different type of Tie Bar with a thicker bar section that is turned down at the threaded end and then the thread done. Top two thick and bottom one normal.....

It's great to see club member Chris putting another car on the road. 6cyl Marina

The only problem Marina sedan owners face is the lack of good C-Pillar Vents. If anyone has them sitting in their shed and not using them, give us a call.

There are also quite a few new parts being reproduced by various people and clubs. Mentiplay Leyland are reproducing Torony Extractors to give your V8 a bit more rumble. You can have them in mild steel or stainless. They also have made Chassis repair sections for the front to make it a bit easier to fix a tricky area.

To be used if your chassis looks a bit like this.....

We also have rear boot rubber mat reproduction available from two sources. What a great selection!! And of course there is more. If you need to know more, contact Rogo

Chassis Rust Repair Section

I have been keeping an eye on Adrian and he has been working on the NV Green car. With the help of a friend, he removed the front seat (bench), carpet and underlay to check for the obvious. With the front passenger side carpet looking like it may have been wet once or twice, he found what many of us have found over the years. Some rust behind the sound deadening on the floor where you put your feet. That sound deadening is placed perfectly to collect and hold water. I looked at my Corinthian car a while back and found some rust on the driver's side hidden behind that sound deadening. No rust on the passenger side though. Definitely worth checking if you haven't got around to it. Looks by the photos that Adrian's car has a very good floor pan. I look forward to seeing more.

If you want to read about club member David Garlick and his cars, you need The BMC Experience Magazine. He has a nice selection of BMC cars.

See you at the Drive-in Saturday
Graham.

President Report March 2015

Hi fellow members. It's been an interesting month.

I have had to postpone the Technical outing till Sunday 28th of May so as to get as many members able to come. The outing is to visit Tubeworx, the makers of automotive piping for brakes, fuel and A/C.

The club has a few members going to Adelaide for the Nationals at Easter and we wish them well. Those that we know are Pat and Graham (Rogo), Allan (Ipswich) and David and Roslyn for the Sunshine Coast. I had to pull out due to lifestyle changes.

The club Technical manager (Rogo) has informed the meeting that we have gasket sets, limited bearings and a limited number of front strut shock absorbers. New rust panels for the bottom of the front guards are also available.

Nev, Dixie, Rob and Reg went to a car display at the Sunshine Coast University a couple of weeks ago. We are suggesting members book their registration for the RACQ day in June and we have the drive in on the Saturday 28th March at Yatala. Proposing to meet at 2pm at the Yatala pie shop for lunch and then enter the Drive In on opening at 4 pm.

Great to see John Spencer back at the club meeting. The club meeting were saddened on passing of his wife. Mike McKenzie has been missing also down in Tassie with family. Ron up Gympie way is happy with the rain recently, plenty of water.

FYI the club will be voting next meeting on increasing the yearly subscription. Postage has increased so we need to adjust accordingly. Another issue is the use of the club moneys, we are limited in how much we can hold in assets and cash. We will also be discussing spending a little to "promote the car" at up and coming events. Would like to start at the All British Day in September. Posters, banners and support for members attending this and other events on behalf of your Club. Chris Brown has suggested a Sunday run to a coffee shop at Cleveland and I also think this would be a great outing too. "Gee Bee's Espresso Bar & Cafe" next door to the motor registry.

Keep abreast of outings in your magazine or on the clubs Facebook page.... Leyland P76 Owners Club Queensland

Please come to the Drive In if able,

Adrian.

Advert for the Gee Bees Café
To Leyland P76 Owners and Associated club members
Good Day

Further to earlier correspondence I would just like to advise that Gee Bee's Cafe is now open till 9:30pm on Thursday's and Friday's and every Sunday from 8-12 for Cars & Coffee. A number of clubs have expressed interest in having Sunday morning events and what we will do then is cordon off premium car parking for the "marquee" club to ensure that they are recognised as the club of the day.

I would appreciate it if you could pass this information on to your members as we strive to serve the car lovers of Brisbane and become the premier meeting place on the Bayside.

Regards

Yowee's Wonderings

Well Wild Crystal and I went to Coffs. Richard and Ann accompanied me in their car. Great time, trip went well.

Ann took the opportunity to visit her friend north of Coffs while Richard and I met up with Norm and Marea Julian from Orange who were on holidays at Marea's mother's house at Sawtell.

Dinner with Norm Marea Tuesday night, coffee at the Yacht Club with Richard, Norm and Marea, before Marea left us to chat on about our Passions... Coffee (not really). Ann was on her way to the North and the 3 P Nuts headed out to talk more P at Woolgoola. Our hosts were Rex and Pamela who put on a great spread for us. Rex and Pamela have been early members of the Qld Owners Club. Discussion was held on topic about surviving in your P, a loss of Targa and Super. Search through their house chasing books of interest while we hear there is another 2 P76s in the bush in a ruined condition. The area around there is very close to the sea and high humidity.

Rex still has a number of engines available for those who would like to purchase them from him, along with a small quantity of parts.

I would like to thank Ann and Richard for accompanying me and it was great to meet with Norm and Marea.

Norm is recovering after riding in the back of Wild Crystal and Richard got an interview for a job on the Gold Coast starting this week. Also on the following Friday I had a job to attend on the Sunshine Coast.

Hi Adrian,

I'm Graeme Balmer, Our new Market is every Saturday morning, in the grounds of the Victoria Point State High School. Working with the P&C raising funds for the school. The market is just 6 weeks old now with a main road frontage on Redland bay road. We are asking for car clubs to come and raise the profile of the School Markets by displays of their cars in the school ground. Your contribution to raising the profile would be a great help to our cause. You would be welcome to show at our markets as many times as you like during the year. Please consider our offer and reply at your convenience.

Kind regards

GRAEME Balmer.
